Thank you to Petra Cortright and @petracollectuals for joining me in a Google Doc where we discussed many exciting things like cyberbullying, soccer tweets, and beauty <333 Thanks to the anons who popped in at the end and contributed to the bonus features <333

The last @petracollectuals post will take place on Saturday, August 28th, after which the work as a whole will go for sale – see below for more details

ALPHA LEGENDS

Or: What Happens When Petra Cortright & @petracollectuals Hop On a Google Doc with paul (from bible)

like so many things it started with a heart react and then another and then another and then another – that’s what @petracollectuals told me when i asked them about their ~relationship~ with petra cortright. since july 16, the account has poster over 30 memes, often creating beautiful animations – which you’ll frequently see reposted on petra’s ig story – riffing on Alpha Legend Petra Cortright’s tweets

and like so many things it started with a dm slide, after i scrolled all the way down to their first meme and saw a comment left by @taolincollectuals: “What is this (serious) to which @petracollectuals responded “late-stage collectualism (kinda serious)”

U could tell they loved petra’s twitter – who wouldn’t? who else is tweeting about man city heartthrob phil foden – a zoomer’s david beckham? who else is flexing pizza they made w/ gardened vegetables? who else is critiquing the delivery fees of a sandstone distributor, all while being an internet icon, a ~poster’s poster~, an Alpha Legend? i knew i needed more – another dm slide was made and all of a sudden me, petra, and @petracollectuals were in a group message, plotting to link in a google drive doc to talk shit and deliver an important like an *extremely* important announcement

i do glycine and melatonin l theanine , i like the sleepy ones. glycine dreams are good, you build a tolerance to glycine though i probably need to take more now to get the crazy dreams again but i also have to wake up in the morning early so its a risk maybe

Oh shit i've heard good things about the glycine dreams, i gotta get on that

It's like the amphetamine of dreams wow – petracollectuals is about to ask a "serious" question now

THATS A BORING QUESTION. BUT SOME PEOPLE CAN REALLY
DEVELOP AN ARTISTIC IDENTITY THAT NEEDS PHET... LIKE
MATH PEOPLE AND STUFF

i literally have a blueprint of my files sober vs drugs the drugs
ones are so simple but i thought i was like beautiful minding
it. the sober ones are truly complex and rich but i dont have
the cracked out genius feeling. but all the layers are there so i
can really go back and see the process and the drugs ones are
retarded, so for me i guess it was a myth that i thought i
needed the pills etc. but it was really scary to stop i thought i
wasn't going to be able to do make anything again

YOU ARE ENTERING YOUR LATE STYLE ALREADY... IM GLAD
YOUVE CONTINUED TO MAKE THINGS. WE ALL BELIEVE IN YOU
EVEN IF ITS SCARY.

^^is she? - i feel like thinking about early / late w/
digital work is wild to think about at this stage of
only a couple decades of it

PAULS Q IS GOOD

yeah i guess do u think about making work that "will
last" or some shit or are u just tryna create cool /
innovative vibes for the present? Like with the
webcam stuff was that even a thought?

no i dont want that kind of responsibility - it will either
happen or it wont, it will either vibe or it wont it will either be
relevant or it wont, but i really feel like i can only make what i
can make and thats it. its sort of out of my hands lol.

THIS BRINGS ME INTO MY FIRST REAL QUESTION!!!! FR FR
BECAUSE IT FEELS LIKE HOW MOST CONTENT CREATORS
DIRECT THEMSELVES INsofar AS THEY DONT REALLY CARE
ABOUT FUTURE LIFE OF CONTENT. WHEREAS ART GENERALLY
IS SUPPOSED TO BE LASTING, YOUR WORK FROM EARLY
WEBCAM TO USING FOUND IMAGES ON INTERNET AS BRUSHES,
KIND OF ALWAYS FLIRTS WITH WHAT I THINK OF AS
"CONTENT" SINCE IT ABSORBS THE QUICKNESS AND I GUESS
"DGAF ABOUT TIME" OF CONTENT CULTURE. BUT I WONDER IF
YOU EVEN CARE ABOUT THE DIVISION... CONTENT VS ART

i just love beauty and try to make beautiful things, if it feels
current/topical that is only a coincidence and i am just getting
lucky that it aligned with "the times". im also just lazy and
like to make work quickly and the best way for that is a
computer, trad art stuff too slow

WOULD YOU EVER MAKE A MEME ACCOUNT?
Or have u ever made memes?

i dont think i am funny or cool enough to make one and i dont have the time it seems like it takes a lot of time. tweeting is probably the closest i have gotten

Yeah speaking of beauty, u tweet a lot about ~the beautiful game~ do u usually follow just world cup / euros or are u a real sœœœer football head?

when i have the time i watch prem, bundesliga, la liga but being a mommy now i dont have the time, i will again one day. 2015-2018 i was watching the most i had ever watched, like almost every game of every league it was great. but also california the game times start very early its a commitment

WILL YOU PASS DOWN YOUR WISDOM OF THE GAME AND BE A SOCCER MOM?

that would be a dream but my kid might not be interested in it lol. also i found a place in LA that trains 2 year olds and i had been looking forward to that even when i was pregnant, but it requires masks on them. and over my dead body will i mask my son. trying to seek out some alt solutions

Yeah masks are whack, esp. w/ that. The last time i played soccer was in hs, i was on a rec team w/ a bunch of friends, my jersey name was 'CHAMPAGNEPAPI' (S/O DRAKE) & the number was 69 – do u have any favorit4e soccer playing memories? Mine was just smoking on the sideline cuz it was rec and nobody gaf

in general the feeling of being able to run forever, the most beautiful feeling really.

yeah i have a conspiracy theory that jon rafman runs jonrafmancollectuols

asked him he said he didn't :) or doesn't or w/e i believed him. stefan asked me what the account was, he definitely doesn't get memes it was really funny to try to explain it to him. nobody i knew asked me if it was me, anyone that knows me pretty well knows that it wasn't but im sure people assume that it might be. if i dont have time to watch soccer i dont have time to make memes i can tell you this, i have priorities.

WE SHOULD GET HIM IN ON THIS GOOGLE DOC TO TELL US ABOUT MEMES

LOLOLOL

Yeah i found his AIDs-3d disses to be rllly funny – do u think cyberbullying could be a form of art one day? Wait no i think cyberbullying is *definitely an artform today* so ignore that – petraceuticals ask another question i cant think of one

for the record i am still a huge aids3d fan, and nik and dan are my boys. i was so excited about that art when they were making it. but also what angelicism was saying wasn't wrong either/ but the idea of being a gatekeeper makes me seem more important than i am which i found to be hot

It's kinda crazy to be announcing this but all good things have to come to an end... :(and i was dm'ing petracollectuals and they told me that the account will be coming to a close on august 28th so we decided that we're going to auction it as a work of art. But we're on that "fuck NFT's" wave, so we're putting it up on eBay, listed by auction house 'swagmastersales', where people can bid for a contract that will be shipped to them and has the account password - there'll be more details in the link below...

IS THE ART THE CONTRACT OR IS IT THE ACCOUNT OR THE CONTENT OR THE PROXIMITY TO OUR QUEEN... THOUGH I WILL ALWAYS HAVE THE "MOTHER FILES"
